Agenda

- 01 Presenting NetAcad Cup
- 02 Why participate
- 03 Register and Collect points
- 04 Ideas & Strategies to win
- 05 What to expect in Phase 2
- 06 Common Questions

Presenting NetAcad Cup

The biggest competition so far!

Remember previous editions?

European Cyber Cup 2023

29716 Student Participants!
16 Teams competed in the CTF

European Cyber Race 2024

44743 Class Participants!
50 Teams competed in the CTF

EMEA NetAcad Cup 2025

Let's break the record!!

EMEA Cisco Networking Academy Cup 2025

Academies compete in a Learn-A-Thon to be in the Top 3 of its country

Qualified Academies access an exclusive Real Madrid Learning Collection and Compete in a Capture the Flag challenge regionally

Best 12 of each region face-off in a Final Capture the Flag about Networking to be the EMEA Champions!

Capture The Flag Phase

8 weeks

- Learn-a-thon for all of EMEA
- Introductory courses from [selected Collection](#)
- Top 3 Academies from each country qualify for the next round

120 min

- Capture the Flag Competition in each pool
- CTF based on [Real Madrid Learning Collection](#)
- Teams divided in 3 pools
- Top 4 teams of each pool (24) progress to Finals

60 min

- Capture the Flag Networking Competition
- 24 teams compete (12 Europe / 12 MEA)
- Networking Essentials curriculum
- Winning team crowned champion of EMEA

Why participate

Reasons for you to participate

- Opportunity to offer essentials skills in your community, city, school, outside of your usual students
- Offer your students new skills and digital badges = more opportunities

- Discover new technologies: AI, Industrial Networking, Cybersecurity
- Be at the forefront of all new courses, translated in many languages
- Make networking cool again!

- Your Academy will make an impact in your community
- Have a chance for your students to stand out and compete at a regional level
- They will learn while collaborating and competing

EMEA Winner Prize:

5 VIPS tickets to La Liga match
+ 5 tickets to a Technical
tour of the Bernabeu

Award categories

Top 3 Partners

Point system to calculate the top 3 performing partners:

1. Academy Participation rate based on % participation of Academies active last 12 months.
2. Adding # Participants Score
3. Adding # New Academies Score
4. Bonus points per qualified Academy in the National top 3

Learnathon

Innovation Award

For the most innovative approach to driving participation.

Award will be given at this year's partner conference, along with dedicated Social Media promotion and special prizes handed in person

Learnathon

Top 40 Academies

20 best Academies per region get Cisco prizes

Learnathon

Winners Gran Final

EMEA Champion

24 Teams
in the Grand Final

12 Runner ups from the groups phase that don't qualify for the Capture the Flag final.

Capture the flag

Register and Collect points

Registration Demo

How to participate in the Learn-A-thon

Top 3 Academies per Country qualify to next phase

1 point/SP
5 points/SC

2 points/SP
10 points/SC

Pathway Exam
50 points/badge

Earn points by creating and register classes into the competition.

The score will be calculated on the sum of the points collected.

Introduction to
Cybersecurity

Networking
Basics

Introduction to
Modern AI

Industrial
Networking

Digital Safety and
Security Awareness

Introduction to IoT
and Digital
transformation

- **SP = Student Participants:** Students that launch, interact, and complete course activities.
- **SC = Student Completions:** Students that complete the Final exam **AND** Course Feedback Survey.
- **Badge Qualified:** Students that complete the Career Path Exam with a score of 70% (any attempt) or greater.

Examples of how points are counted

Leaderboard of a single Country

 Academy A

Course	SPs	SCs
Intro to Cyber	254 x1	42 x5
Intro to Modern AI	120 x1	56 x5
TOTAL POINTS	374	490

 Academy B

Course	SPs	SCs
Intro to Cyber	25 x1	24 x5
Intro to Modern AI	53 x1	38 x5
Networking Basics	28 x2	26 x10
TOTAL POINTS	134	570

 Academy C

Course	SPs	SCs
Intro to Modern AI	64 x1	39 x5
Networking Basics	32 x2	24 x10
Pathway Exam	--	30 x50
TOTAL POINTS	128	1935

Leaderboard

Position	Academy	Points
1	Academy C	2063
2	Academy A	864
3	Academy B	704

How Academies qualify per Country

Phase 2 qualifiers – Top 3 of each country

 France

P	Academy	Points
1	France Acad 23	2063
2	France Acad 12	864
3	France Acad 8	704
4	France Acad 5	543
5	France Acad 17	125
6	France Acad 11	98

 Morocco

P	Academy	Points
1	M. Academy 8	648
2	M. Academy 4	526
3	M. Academy 11	510
4	M. Academy 14	424
5	M. Academy 2	265
6	M. Academy 1	136

 Moldova

P	Academy	Points
1	Moldova A.3	468
2	Moldova A.5	125
3	Moldova A.1	62
4	Moldova A.9	14

Ideas & Strategies to win

Dealing with constraints

« I don't have the time as it is, how can I take this on? »

Good news: **You don't need to teach the content to get the points**

This campaign's main motive is to encourage the students to get the badges and to expose them and you to the content

Pick an activity or chapter

Open the exam

Name an ambassador: **driving students to the classes doesn't have to be your job:**

Name one or several ambassadors and we will work with you to recognize their efforts!

Driving adoption and participating

How can I drive the numbers?

QR Code Campaigns

For academies attached to large institutions, convert the intro classes to QR codes that your students can distribute to their friends and classmates

Create a central website of your own

Put all the links in a central place presenting the competition, reach out to us if you need support with images or slides.

Emphasize the value of the badges

For students that are not necessarily IT verticals, the intro level badges are an easy add-on to their resume and CV

Marketing materials

What to expect in Phase 2

The use case of Real Madrid

Real Madrid Learning Collection

Students will learn about how the Real Madrid is using Cisco Technologies.

- Network Infrastructure
- Data Center
- Wireless
- Other solutions from digital signage to IP Fabric for Media.

Tech Infrastructure for the Future

STREAMLINED NETWORK INFRASTRUCTURE

It all starts with Cisco's single converged Software Defined Access (SDA) network, which carries all the data needed to drive the Bernabéu's elevated fan experience, from digital signage to real-time app interaction, 4K video to seamless point-of-sale and so much more.

85,000
FANS

will access the Bernabéu's network on a daily basis

Smart Solutions for Connected Fans

CONNECTED AND PROTECTED WITH WI-FI 6

Cisco has joined the new Bernabéu with 1,500 access points, focused on delivering heightened reliability and faster speeds, allowing for more seamless, immersive experiences. This setup is a huge advance on the patchy Wi-Fi coverage at many sports stadiums, frustrating fans who want to stay connected and share their matchday experiences.

1,500
ACCESS POINTS

cover the Bernabéu's vast and modern Wi-Fi 6 network

What is Capture the Flag?

- Next generation learning platform where people can obtain hands-on experience, by solving real lab challenges in a gamified environment.
- Students demonstrate their skills through hands-on Capture the Flag challenges, gaining practical experience.
- Same platform as Cisco Certificate in Ethical Hacking.

Components

Mission Progress

Mission Description:
After completing the first four missions, your team has earned a place in the Grand Final! The stakes are higher than ever, as the European top drivers and engineers gather to claim the crown.
But today, the challenge isn't just about speed on the track; it's about ensuring the technology driving these marvels of engineering is secure, efficient, and reliable. In secure victory, you must outwit rival teams in a cybersecurity back-and-forth that mimics the high-pressure environment of a real F1 race. Which team will cross the finish line?
In this virtual race, your team are the best cybersecurity engineers for a championship-winning team. Every flag represents a hurdle your team must overcome to dominate the race. Are you? Resolve technical challenges swiftly and intelligently to keep your car performing at its peak. Let's get started. The team with most points will be crowned the European Champion!

Overall Difficulty: Medium
Time to Complete: 05H:00M
Recommended For: Students
Mission Author: Asaph Itzhaki
Hernandez

Key Takeaways from this Mission:
To ensure that students apply the concepts learnt in the cybersecurity essentials course to real-world scenarios...

Flags / Tasks -

1. **Log W' Log (difficulty: 5/5)**
The race begins with an unexpected error. An alert on the dashboard indicates a problem with the engine. Our team must contain these errors to resolve the issue and proceed.

Portal

- Drives the story by presenting missions

Lab (optional)

- Packet Tracer or other tools. Perform the actual tasks for each mission

Missions/Tasks/Flags

- Flags / Tasks -

#	Name and Description	Points
1	 Run the Numbers You are poking around trying to get the lay of the land. How many Network Devices are in Cisco DNA Center's Inventory? (Looking for the answer expressed as number, i.e. "10", not "ten")	10

 Read More Task Details

- Each mission comprises several **tasks**, which are outcomes to be accomplished.
- Tasks could have a **detail page** with general pointers - no lab guides are available.
- While solving each task **objective**, players need to find a **flag** (answer).

- If the flag is correct, **points are earned** and counted towards the overall score.
- Depending on the difficulty, **hints** may be available, generally at a certain cost (points).
- And to make everything entertaining, all scores are added to an event **leaderboard**.

Common Questions

Some of your questions

- What are the outcomes for joining the webinar?
 - Does the registration on the cup still open?
 - Certificates of participation
 - Only students from top 3 academies will be selected for the CTF? Instructor should accompany them?
 - How to know about the collected points?
 - Requirements to participate in the cup competition
 - Is the competition only for students? If not, how are the participants be segmented?
 - Questions about certifications, career paths, discount vouchers are out of the scope of this webinar
- Learn about NetAcad cup and register!
 - Yes! Until 31st December 2025
 - Yes!
 - Yes! A team of 4 students + 1 instructor
 - Leaderboard
 - To be a NetAcad Academy in EMEA region
 - Students, instructors, Academies, partners...
 - Contact your ASC or watch Program updates sessions from IPD Week <http://cs.co/netacadipd>

Recommendations

- Make sure you pick the right start date 12th January 2026
- Create the right course! Not all courses are included
- Make sure to include the self-enroll link in the form to register
- Don't enter grades manually = won't count as completed
- Digital badge is only necessary for the pathway exam
- For instructor-led classes, mark students as completed

Registration is open!
